

How to prepare the liquid

1

Remove the lid of the container containing the freeze-dried powder and remove the rubber stopper.

2

Open the lid of the container labeled "Dedicated Dissolving Solution" and use the dropper on the lid to transfer all of the Dedicated Dissolving Solution into the container 1.

3

Put a rubber stopper on container 2 and shake gently to mix. Make sure the powder is well dissolved.

4

Using the dropper, transfer the contents of container 3 to the nasal spray container and you are ready to go.

***The nasal spray container is disposable.
Please do not reuse it.**

Pure Stem™

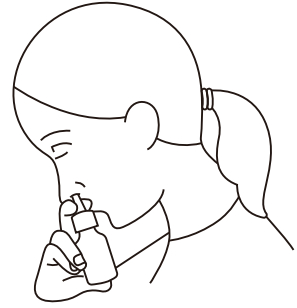

Nasal Spray Kit

How to use the nasal spray

1

One set of 1 to 3 sprays to each nostril, 1 to several sets per day.

*Shake well before each use.

2

After use, look up for a while to prevent the liquid from flowing out of your nose.

3

After use, please store the remaining solution in the nasal spray container in your refrigerator. Since no preservatives are used, please make sure to use it up as soon as possible.
